

**23<sup>rd</sup> International Congress on Heterocyclic Chemistry SECC, Glasgow, UK  
August 2011**

The international congress was held in Glasgow, United Kingdom. Department of organic chemistry at Palacký University was represented by the PhD students, Naděžda Cankařová and Barbora Vaňková. Both of them presented their results in the form of lecture.

The lecture of **Naděžda Cankařová** was aimed on diversity-oriented solid phase synthesis and biological properties of prepared heterocycles.

**Barbora Vaňková** reported about solid-phase synthesis of purine-hydroxyquinolinone bisheterocycles and about their fluorescent properties.

The congress was concluded by the Gala dinner, which was held in the magnificent Art Gallery and Museum, Kelvingrove.
